Goalkeeper Training

Danny Huerta (pictured below) will be conducting the goalkeeping academy. Danny is a VA State ODP coach and works with several of the top clubs in Virginia.

The goalkeeper's performance in today's game is taken very seriously by CSP. During the week our goalkeeper training staff extensively reiterates technique. In field player training sessions, goalkeepers are integrated to create real game like situations. The use of video is also used during training and even-ing matches to help goalkeepers envision their successes and work on their weaknesses. Their week long experience will be equal to a whole season's worth of training.

Team Training Program

Each team has different needs. Teams that participate in the CSP Residential Camp will be paired with a CSP coach that best meets their needs. Once registered, the coach of the team will be given a questionnaire. This questionnaire will be used to develop a custom tailored personal program prior to the team's arrival, in order to maximize the experience.

Players Will Learn/Experience:

- Speed/Agility Training
- Team Building/Psychological Training
- Increased Speed of Play
- Principles of Team Play
- Individual & Team Defenses
- Possession/Support Play
- Attacking Strategies in the final 1/3
- And much much more!
